

Nordic Society of Nephrology 2023

Reykjavik, Iceland, September 13-16 2023

**Don't miss
this event at
NSN 2023**

Please join this symposium on Friday, September 15, 16:30-17:30

A practical Approach: Why and How to Use EVRENZO

We are happy to announce that one of the leading European experts in nephrology, Dr David Wheeler will be giving this talk about the practical implementation of roxadustat.

Presentation by Dr David Wheeler
Friday, September 15, 16:30-17:30

For more information, please visit the Astellas stand at NSN
2023 September 15, 16:30-17:30.

Dr David Wheeler is a Professor of Kidney Medicine at University College London and Honorary Consultant Nephrologist at the Royal Free London NHS Foundation Trust.

He is a clinician scientist interested in chronic kidney disease and its complications. Dr Wheeler has participated in developing and running several largescale clinical trials testing lipid-lowering regimens, calcimimetics, intravenous iron, sodium glucose cotransporter 2 inhibitors and hypoxia-inducible factor prolyl hydroxylase inhibitors (HIF-PHI) in patients with chronic kidney disease.

His responsibilities include chair of the International Society of Nephrology's Advancing Clinical Trials (ISN-ACTs) Committe, and he has been involved in developing Clinical Practice Guidelines for several organisations, most recently for Kidney Disease: Improving Global Outcomes (KDIGO). He served as KDIGO co-chair between 2012 and 2019. Finally, he has served as president of the UK Renal Association and is currently the National Institute for Health Research (NIHR) lead for Renal Specialty Disorders in the UK.
