

## SCIENTIFIC PROGRAM

### TIME WEDNESDAY, SEPTEMBER 13, 2023

<b>08:00</b>	On-site registration for presymposium and general meeting
08:30 – 08:45	<b>Presymposium</b> <b>Introduction and mingle</b>
08:45 – 10:15	<b>Norway: Glomerular Disease</b> 1) Norwegian kidney biopsy registry (NKBR) Øyvind Steinskog  2) Transcriptomics in assumed benign IgA nephropathy Mariell Rivedal  3) An overview of C3 glomerulopathy in Norway Rune Bjørneklett  4) Glomerular transcriptomics of minimal change disease identifies novel treatment targets Hans Peter Marti
10:15 – 11:45	<b>Denmark: Current understanding and treatment of mineral and bone disorder in CKD</b> 1) PTH as a treatment biomarker in CKD – still going strong? Morten Buus Jørgensen  2) Calcium supplementation in CKD – will skeletal benefits outweigh vascular concerns? Ditte Hansen  3) New diagnostic options – are bone biomarkers useful in clinic? Hanne Skou Jørgensen  4) Multidisciplinary teams and their tools clinical case discussion (all)
11:45 - 12:15	<b>LUNCH</b>
12:15 – 13:30	<b>Sweden: Nephrology in the elderly</b> 1) Biological ageing and kidney transplantation Helen Erlandsson  2) ANCA-associated vasculitis in the elderly – diagnostic and therapeutic aspects Maria Weiner  3) Is age just a number? Vascular access in the elderly dialysis patient Gunilla Welander
13:30 – 14:45	<b>Iceland: Chronic kidney disease - Icelandic epidemiology</b> 1) Epidemiology of CKD in Iceland, age matters Arnar Jan Jónsson

	<p>2) CKD in association with lithium treatment Gísli Gíslason</p> <p>3) Is the incidence of RPGN increasing in Iceland? Magnús Þór Sigurðarson</p>
14:45 – 14:55	<b>Coffee</b>
14:55 – 16:25	<p><b>Finland: Transplantation from a broad perspective</b></p> <p>1) Transplantation immunology for dummies Jouni Lauronen</p> <p>2) Update of viral infections in kidney transplant patients Ilkka Helanterä</p> <p>3) Cardiovascular disease after transplantation Roosa Lankinen</p> <p>4) Evaluation of bone health before kidney transplantation Louise Aaltonen</p>
16:25 – 16:30	<b>Discussions</b>
18:00 – 20:00	<p><b>Opening Ceremony</b></p> <p>Welcome address: Sunna Snædal, Congress President</p>

## TIME THURSDAY, SEPTEMBER 14, 2023

08:00	<b>Registration</b>
08:30 – 09:15	<p><b>State-of-the-Art Lecture</b></p> <p><i>Chair: Ásta Dögg Jónasdóttir</i></p> <p>Insights from huma multiomics Hilma Hólm, Iceland</p>
09:15 – 09:35	<b>Industry exhibition and Coffee break</b>
09:35 – 11:00	<p><b>Dialysis Access</b></p> <p><i>Chairs: Helga Guðmundsdóttir and Sunna Snædal</i></p> <p>9:35 – 10:05 Access and life-PLAN – updated KDOQI guidelines Ulrika Hahn Lundström, Sweden</p> <p>10:05-10:30 Vascular access after transplantation Joris Rotmans, Netherlands</p> <p>10:30-10:55 Tissue engineering for hemodialysis access Joris Rotmans, Netherlands</p>

11:00 -  
12:00

## ADPKD

*Chair: Runólfur Pálsson*

11:00 – 11:25

Tolvaptan pro

Marie Hogan, USA

11:25-11:50

Tolvaptan con

Bo Feldt-Rasmussen, Denmark

12:05 -  
13:00

AstraZeneca Lunch Symposium

## From ground-breaking medical evidence to change in clinical practice

12:05 - 12:10

Challenges and opportunities with CKD in primary care

PCPs, video

12:10 - 12:20

The standard of care for CKD patients in primary care is changing: are we ready for that?

Professor Peter Rossing

12:20 - 12:40

From evidence to clinical practice: key highlights and first experiences.

Professor David Wheeler

12:40 - 12:50

Strategical working group of Finnish Society of Nephrology: Early detection and management of CKD

Associate Professor Satu Mäkelä

12:50 - 13:00

Panel discussion and Q&A

All

13:00 -  
13:40

## Poster Presentations

13:40 -  
14:30

## Dialysis

*Chairs: Björg Þorsteinsdóttir and Sunna Snædal*

13:40-14:05

Incremental hemodialysis Pro

Ola Samuelsson, Sweden

14:05-14:30

Incremental hemodialysis Con

Ólafur Skúli Indriðason

14:30 -  
16:00

## The future in renal replacement therapy

*Chairs: Ólafur Skúli Indriðason and Ragnar Pálsson*

14:30-15:00

Xenotransplantation: The impossible solution to the organ shortage crisis

Jayne Locke, USA

	<p>15:00-15:30 Bioartificial kidney William H. Fissell, USA</p> <p>15:30-16:00 Regenerative medicine Bettina Wilm, UK</p>
16:00 - 16:30	<b>Industry exhibition and Coffee break</b>
16:30 - 17:30	<p>Hansa BioPharma Symposium</p> <p><b>Towards equity for highly sensitised patients in kidney transplantation</b></p> <p><i>Chair: Dr Margrét B Andrésdóttir</i></p> <p>Introduction Dr Margrét B. Andrésdóttir, National University Hospital of Iceland, Reykjavík, Iceland</p> <p>Transplant options for very highly sensitised patients Dr Nicholas Topey, Cambridge Transplant Unit, Cambridge, UK</p> <p>The challenge of highly sensitised patients in the Nordics - early experience of imlifidase in Finland Dr Ilkka Helanterä, Helsinki University Hospital, Helsinki, Finland</p> <p>Discussion and questions All</p> <p>Closing remarks Dr Margrét B Andrésdóttir</p>

## TIME FRIDAY, SEPTEMBER 15, 2023

08:30 - 09:15	<p><b>State-of-the-Art Lecture</b></p> <p>Learning from nature to make everyone healthier – a concept of planetary health Peter Stenvinkel, Sweden</p>
09:15 - 09:35	<b>Industry exhibition and Coffee break</b>
09:35 – 11:00	<p><b>Lessons from pediatric nephrology: Does timely intervention of childhood disease improve adult health?</b></p> <p><i>Chairs: Hjördís Þorsteinsdóttir and Sindri Valdimarsson</i></p> <p>9:35-10:05 Tracking of blood pressure from childhood to adulthood Carissa Baker-Smith, USA</p>

	<p>10:05-10:35 Progression of CKD in children: How effective are therapeutic interventions? Viðar Örn Eðvarðsson, Iceland</p> <p>10:35-11:00 The burden of cardiovascular disease in children and young adults with CKD Vaka K. Sigurjónsdóttir, Iceland</p>
11:00 - 12:00	<p><b>Chronic kidney disease</b> <i>Chairs: Arnar Jan Jónsson and Viðar Örn Eðvarðsson</i></p> <p>11:00-11:30 Evaluation of GFR Bjørn Odvar Eriksen, Norway</p> <p>11:30-12:00 Age, race and eGFR Natalie Ebert, Germany</p>
12:00 - 13:00	<p>Chiesi Sponsored Lunch Symposium- Kaldalón</p> <p><b>New opportunities in the treatment of Fabry disease</b></p> <p>Fabry disease in the Nordics - current unmet need with renal focus Fabry nephropathy – new treatment approaches Where do we stand and where do we go?</p> <p>Speakers: Camilla Tøndel, Professor, MD PhD Pediatric Nephrology Haukeland University Hospital Ulla Feldt-Rasmussen, Professor, MD, DMSc Medical Endocrinology and Metabolism Copenhagen University Hospital Irene Koulinska, Medical Director, Inborn Errors of Metabolism - Rare Diseases Chiesi Global Rare Diseases</p>
13:00 - 13:30	<p><b>Poster presentation</b></p>
13:30 - 14:45	<p><b>Glomerular diseases and vasculitis</b> <i>Chairs: Ásta Dögg Jónasdóttir and Margrét B. Andrésdóttir</i></p> <p>13:30-14:00 Revisiting guidelines for the treatment of IgA nephropathy Heather Reich, Canada</p> <p>14:00-14:30 Membranous glomerulopathy: Antigen discovery and utility in clinical practice Chris Larsen, USA</p> <p>14:30-15:00 News from the vasculitis field Annette Bruchfeld, Sweden</p>
15:00 - 16:00	<p><b>Free Communications - best 6 abstracts</b> 15:00 - 15:10 O1 - Survival, hospitalization and infectious complications in urgent-start PD</p>

compared with urgent-start HD  
Jonna Virtanen, Finland

15:10 - 15:20

O2 - Incident warfarin treatment versus no anticoagulants in patients with non-valvular atrial fibrillation and CKD G3-G5D.

Frida Welander, Sweden

15:20 - 15:30

O3 - The Borg scale for prescribing and monitoring intensity of self-administered balance and strength exercise is safe and efficient in patients with CKD

Philippa Svensson, Sweden

15:30 - 15:40

O4 - Combining dapagliflozin and finerenone has an additive effect on albuminuria in non-diabetic CKD: An open label randomized clinical trial

Frederik Husum Mårup, Denmark

15:40 - 15:50

O5 - Community-acquired acute kidney injury: Causes and risk factors

Telma Huld Ragnarsdóttir, Iceland

16:00 -  
16:30

**Industry exhibition and coffee break**

16:30 -  
17:30

Astellas Symposium

**A practical Approach: Why and How to Use EVRENZO**

Dr David Wheeler

We are happy to announce that one of the leading European experts in nephrology, Dr David Wheeler will be giving this talk about the practical implementation of roxadustat.

[DOWNLOAD BROCHURE](#)

19:00

**Conference dinner**

## TIME SATURDAY, SEPTEMBER 16, 2023

09:30 -  
10:30

CSL Vifor Symposium

**New treatment modalities for AAV and CKD-associated Pruritus**

9:30-9:35

Welcome and introduction

Associate Professor Gunnar Tómasson, Landspítali - The National University Hospital of Iceland

9:35-10:00

New aspects in ANCA associated vasculitis

Ragnar Gunnarsson, MD PhD, Oslo University Hospital Rikshospitalet

10:00-10:25

An opportunity to improve CKD-associated Pruritus: Sharing clinical experience

	<p>of difelikefalin Professor Gert Mayer, Medical University Innsbruck, Austria</p> <p>10:25-10:30 Panel discussion and Q&amp;A All</p>
10:30 - 11:15	<p><b>State-of-the-Art Lecture</b> Diabetic kidney disease – Current management and future perspectives Peter Rossing, Denmark</p>
11:15 - 12:30	<p><b>Onconeurology</b> <i>Chairs: Fjölfnir Elvarsson and Sigríður Birna Elíasdóttir</i></p> <p>11:15-11:40 Kidney cysts/cancer Árni Sæmundsson, Iceland</p> <p>11:40-12:05 Chemotherapy and immunotherapy induced kidney injury Sigurdís Haraldsdóttir, Iceland</p> <p>12:05-12:30 Monoclonal gammopathy and kidney disease Þórir E Long, Iceland</p>
12:30	<p><b>Closing remarks</b></p>
